Electric vehicles for **Construction sites**

CE
—
CERTIFIED

**BROCHURE
SECTOR**

DUMPER-JET

500 kg
Load capacity

5,5 km/h
Max. speed

30%
Max. slope

8 h
Autonomy

The **DUMPER-JET** electric wheelbarrow, compact but with a large load capacity, helps **transport various types of building materials**, from **bricks** to **concrete** and any **inert material**. Easy to use and very powerful, it allows you to effortlessly move **up to 500 kg** of material, facilitating and securing heavy operations on construction sites. It is also perfect on uneven, irregular terrain and on **slopes of up to 30%**.

JESPI

1.000 kg
Load capacity

5,5 km/h
Max. speed

30%
Max. slope

8 h
Autonomy

The **JESPI** 4-wheel electric truck is sturdy, easy to use, and can carry loads of **up to 1,000 kg** on its platform. Suitable for both outdoor and indoor use, it is the ideal tool for transporting heavy and bulky materials such as bags of cement, bulky building materials, and pallet loads. Platforms of various sizes are available.

HS4

1.000 kg
Tow capacity

5,5 km/h
Max. speed

30%
Max. slope

8 h
Autonomy

The **HS4** 4-wheel electric trolley is versatile and can be used on construction sites to transport various types of material effortlessly, both outdoors and indoors. Sturdy and easy to handle, it can be equipped with a skip or platform to **transport up to 1,000 kg**. Thanks to numerous safety systems, such as the presence sensor and electromagnetic brake, the user can operate without risk, even on slopes of **up to 30%**.

... the passion for moving

The handling specialists

Zallys is a manufacturer of **electric movers** for various branches of industry including logistics, construction and distribution chains, but also airports, hospitals and much more. For more than **25 years** we have been present on the international market with a network of over **60 distributors worldwide**. The experience in designing and manufacturing professional electric vehicles has made **Zallys** a leading company in the sector, capable of satisfying any need related to the movement of wheeled loads and the transport of goods or people.
